Education

B.Tech in Computer Science and Engineering
RKDF UNIVERSITY RANCHI
July 2020 - June 2024

12th (Senior Secondary)
NIOS
April 2019 - March 2020

10th (Secondary Education)
Imperial School of Learning
April 2017 - March 2018

Technical Skills

- Java
- Chakra Ui
- MongoDB
- CSS3
- HTML5
- Git
- Redux
- Express.js
- JavaScript
- React
- Node.js
- Responsive Web Design
- RESTful APIs

Soft Skills

- Problem Solving
- Effective Communication
- Attention to Detail
- Adaptability

Pankaj Kumar Mahato

Full Stack Web Developer

Professional Summary

Innovative Full Stack Web Developer with proficiency in the MERN stack, HTML, and CSS. Skilled in creating scalable APIs and efficient database models. Excellent problem-solving and communication abilities, with a passion for leveraging Generative AI and swiftly adopting new technologies to enhance software development.

Projects

Groupon Clone (MERN)

- [Live Demo Link](#)
- [Github Repo Link](#)

JavaScript Git MongoDB Express.js

Node.js Chakra UI Responsive Web Design

- Developed a full-stack web application replicating Groupon's core functionalities using the MERN stack, enhancing my proficiency in JavaScript.
- Implemented a secure user authentication system utilizing password hashing with bcrypt and JWT-based tokens.
- Architected a dynamic API backend with Express.js and integrated MongoDB for efficient data storage and retrieval.
- Designed a responsive user interface leveraging Chakra UI, ensuring a smooth user experience across devices.
- Features like product search, cart system, and detailed product pages demonstrate my capability in handling complex web functionalities.

Campaign Management System

- [Github Repo Link](#)

React JavaScript Express.js MongoDB

Node.js RESTful APIs Responsive Web Design

- Developed a comprehensive campaign management system using the MERN stack, enabling businesses to effectively reach their target audience.
- Designed efficient, scalable server-side APIs using Node.js and Express.js to support campaign creation, tracking, and management.
- Implemented user-friendly frontend components with React.js, allowing admins to design campaigns and set goals with ease.
- Created and optimized database models and queries with MongoDB to store and manage campaign data efficiently.
- Ensured seamless integration between frontend and backend, providing real-time analytics and reporting on campaign performance.
